According To Product Safety Law Inspection Of Functionality CE-Conformity Inspection of Pollutants Norms Of Toys EN 71 Inspection Of Foods GS-Certified Security

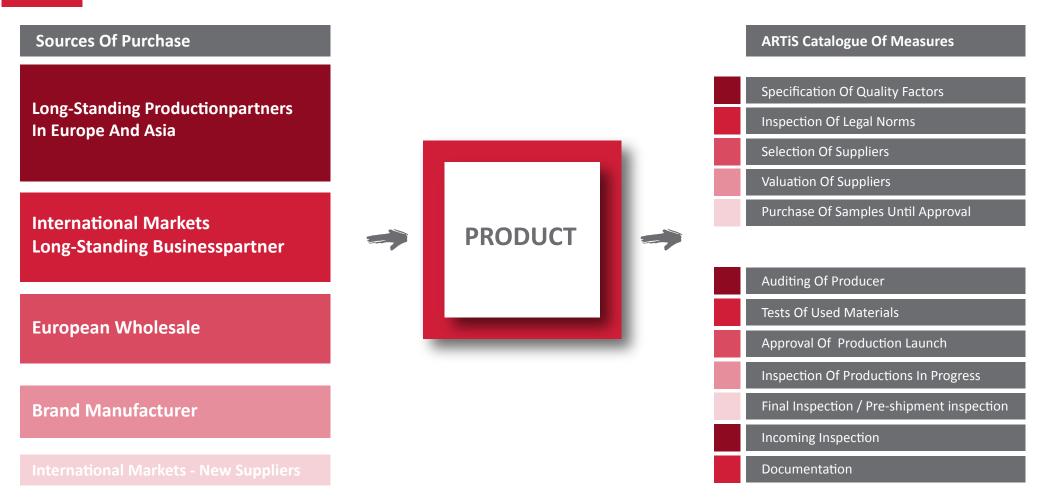

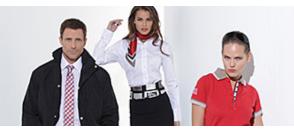

### **INTERNATIONAL PURCHASE BY ARTIS**

# **PRODUCTION STANDARDS**

### Conventions of ILO "Intertnational Labour Organisation"

- Freedom of accociation and rights for collective negotiations.
- Elimination of forced labour and child labour.
- Prohibition of discrimination in employment and work.

- Dignified employment and remuneration.
- Social security strengthening.
- Strengthening the dialogues between social partners.

#### The ILO conventions are NOT persuable, because there are no certifications!

### SA 8000 is the certified section of ILO conventions

**Social Accountability** 

- Warranty of health and security at work.
- Elimination of discrimination and prohibition of child labour.
- Cross-border limitation of maximal labor hours.

#### BSCI is a country-specific certification according to ILO conventions

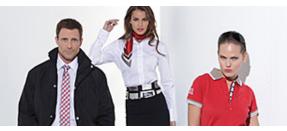

**Business Social Copliance Initiative** 

- Labor hours and overtime provisions are in accordance to national laws.
- Payments of lawful minimum or sector-related remuneration.
- Elimination of discrimination and prohibition of child labour.

• Purchase in Italy, China, Turkey, Romania, Hungary, Portugal, India, ...
These suppliers must have minimum SA 8000 certification and 98% of them have BSCI or similar standards.

### **PRODUCT SAFETY**

Requirements

**Guarantee Of Requirements** 

**Product Safety** 

**ProdSG** 

**REACH** Self-commitment of industries and importers to verify, that chemical ingredients

are just contained in the defined range. Actual ingredients 144!!!

**Textiles:** Information of raw materials: percent in weight; children's clothing; DIN EEN 14682

**Toys:** CE-marking; EN 71; toys, warnings for children under 3 years,

if necessary detailed installation instruction

**Synthetic product:** CE-marking; if necessary "Food-Safe"- marking

**Electro products:** RoHS; CE-marking;

**USB-sticks:** Gema charge: 0,30 € per piece

**Inflatable articles:** CE-marking; EN 71;

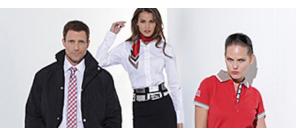

Magnetic products: Warnings: "Warning! This toy contains magnets or magnetic parts. Magnets in human

bodies..."

. . . .

There are clearly defined regulations the "distrubuting company" (manufacturer or importer) must comply with. Additional to local inspections ARTiS recommends inspections in german institutions for example TÜV- Süd.

# **ENVIRONMENT & SUSTAINABILITY STANDARDS**

**RoHs & Reach** 

- RoHs Controls the limited usage of dangerous contents for electronic devices.
- Reach Valuation and admission of chemical ingredients.

ÖkoTex 100
